Nylon plug F10

The CELO nylon plugs are ideal and efficient for fastening light to medium loads.
The standard plug is ideally suitable for solid base materials, but achieves also good load values in perforated bricks and aerated concrete. Due to the high expansion ability, the CELO standard plugs achieve high pull-out loads. Because of the very good screw guidance, the screw cannot move out of the plug during the screwing in. The wings at the plug cause a good twist resistance in the drill hole. In addition, the strong design prevents bending when hammered in. The plug consists of high quality and ageing resistant nylon.

General information

Product ID	50000088
GTIN	5413574022500
Manufacturer name	Rofix
Brand name	ROFIX
Product in stock	No
Net length	0.12 m
Net width	0.09 m
Net height	0.061 m
Net weight	0.002 kg
Net volume	0.659 m³
REACH indicator	Does not contain any SVHC in excess of 0.1% product weight

Ordering information

Order unit	Piece
Minimum quantity	50
