Nylon plug with collar 10x60

The CELO plug with collar is suitable for almost every building material. With the 4-sided expansion in solid building materials and the knotting in perforated bricks or board materials, the plug always provides a secure fixing with high pull out loads. The plug collar inhibits slipping into the drill hole. The plug is also compatible with many types and sizes of screws. The multi-purpose plug with collar consists of high quality polyethylene which guarantees long lasting elasticity and reliable knotting behaviour.
